SUMMARY

Passionate and versatile Computer Science student with a proven ability to quickly learn and apply new technologies. Excelling in dynamic settings, I collaborate effectively with diverse teams to develop innovative solutions for real-world challenges. I am dedicated to bridging the gap between cutting-edge research and practical applications to drive meaningful change through technology.

EXPERIENCE

Christ University Yeshwantpur **Bengaluru, Karnataka**
Project: - Efficacy Finder *November 2024-March 2025*

- **Conducted** an extensive literature review of 32 research papers on VRET vs. CBT effectiveness, predictive modeling in mental health, and synthetic data generation.
- **Developed** a Random Forest-based predictive model to determine the success probability of Virtual Reality Exposure Therapy (VRET) vs. Cognitive Behavioral Therapy (CBT) for specific patients.
- **Utilized** synthetic and real patient data, applying feature engineering, Min-Max scaling, and missing data handling for improved model performance.
- **Evaluated** model accuracy using F1-score, ROC-AUC, and cross-validation, optimizing for interpretability over black-box deep learning models.

Christ University Yeshwantpur **Bengaluru, Karnataka**
Project: - DataScope *July 2024 - November 2024*

- **Designed and implemented** intuitive user interfaces to ensure a seamless user experience using React Native.
- **Developed and deployed** server-side functionalities utilizing Node.js and Express frameworks.
- **Integrated Firebas**e for real-time database interactions, user authentication, and efficient data synchronization.
- **Connected** the application to a MongoDB database to manage and store survey data effectively.
- **Collaborated** with the team to submit detailed project reports to faculty supervisors for verification and feedback.

Christ University Yeshwantpur **Bengaluru, Karnataka**
Project: - BuildIT *January 2024- April 2024*

- **Conceptualization and Design:** Collaborated closely with a team of fellow developers to conceptualize BuildIT, an online platform empowering user to design and price custom PC builds. Leveraged Figma to create intuitive wireframes and mockups, establishing a user-centric design philosophy from the outset.
- **Front-End Development with React.js:** Spearheaded the front-end development using React.js, a powerful JavaScript library for building user interfaces. Implemented reusable components, dynamic forms, and real-time price calculations to provide a seamless and engaging user experience.
- **Back-End Development with Node.js and Express.js:** Built a robust back-end using Node.js and Express.js, enabling efficient communication between the front-end and the PostgreSQL database.
- **Database Management with PostgreSQL:** Designed and maintained a PostgreSQL database to store a comprehensive catalog of PC components, including CPUs, GPUs, motherboards, RAM, storage, and cooling solutions. Implemented data validation and security measures to ensure data integrity.
- **Integration and Testing:** Integrated the front-end and back-end components, meticulously testing the application for functionality, responsiveness, and compatibility across different browsers and devices. Collaborated with the team to identify and resolve bugs and performance bottlenecks.

Kulapati Munshi Bhavans VidyaMandir **Thrissur, Kerala**
Project: - Employee Management System using Pandas *October 2021 - February 2022*

- **Data Structure Design:** Defined the essential employee data fields (e.g., name, ID, department, salary, hire date) and designed a panda DataFrame as the core data structure to hold this information.
- **Data Loading and Cleaning:** Leveraged pandas to import employee data from various sources (e.g., CSV files, Excel sheets) and performed data cleaning operations like handling missing values, standardizing formats, and removing duplicates.
- **Data Manipulation and Analysis:** Used pandas' powerful indexing, slicing, and filtering capabilities to extract specific employee subsets and generate insightful reports.
- **Custom Function Development:** Implemented custom Python functions for common HR tasks, such as adding new employees, updating existing records, calculating years of service.

VOLUNTEERING EXPERIENCE

Ataraxia – Esports club **Bengaluru, Karnataka**
Student Representative *Dec 2023 - Feb 2024*

- **Led successful intra-college esports tournament:** Organized "SyncX" attracting numerous participants and spectators.
- **Represented college in inter-college events:** Led and participated in teams, achieving notable placements and boosting the college's reputation.
- **Grew and strengthened the esports club:** Recruited new members, organized meetings.
- **Developed leadership and esports skills:** Demonstrated leadership, communication, event management, and competitive gaming abilities.

Department of Physical Education (DPE) – Christ University Yeshwantpur
Bengaluru, Karnataka
Logistics team *Dec 2023 - Feb 2024*

- **Led logistics** for 3 intra-college sports events in the PEDAGOGIC LEAGUE series.
- **Coordinated,** equipment, schedules, and transportation for each event.
- **Served in the logistics team** for the CUBYC-SPO 23 inter-college sports festival.
- **Managed logistics for** multiple sports, including venue coordination, transportation, and accommodation for visiting teams.
- **Recruited, trained, and supervise**d volunteers, ensuring smooth event operation.

EDUCATION

Christ University Yeshwantpur **Bengaluru, Karnataka**
Bachelors in Computer Applications *August 2022- May 2025*
SGPA: 3.21/4 , 8.2/10

Kulapati Munshi Bhavans Vidya Mandir **Thrissur, Kerala**
X Grade – 89.4
XII – 82.4

SKILLS & LANGUAGES

Skills: Microsoft Office (Word, PowerPoint, Excel) |C programming| Project Management | Pandas | Java |Python | HTML| CSS | JavaScript| MySQL & SQL | Figma | Autodesk 3ds Max | Adobe Photoshop | Communication | PostgreSQL | Data Cleaning | Reporting |Team Collaboration |Process Coordination | Research | Literature survey | Machine Learning |
Languages: English, Malayalam, Hindi, elementary proficiency in German
